-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

The amendment filed 01/19/2005 has been entered. Claims 26-32 are pending and being examined.

5           Applicant's arguments with respect to claims 26-32 have been considered but are moot in view of the new ground(s) of rejection.

**New Formal Matters, Objections, and/or Rejections:*****Claim Rejections - 35 USC § 112***

10           Claims 26-32 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The claims are directed to or encompass a process utilizing a folding buffer “wherein  
15   said folding buffer does not contain a chaotropic agent”. The present specification discloses that the folding buffer may contain a salt, preferably NaCl at a concentration of 1 to 2 M (page 8, last two paragraphs). The present specification exemplifies the folding buffer comprising 1M NaCl (page 18, Example 4). NaCl is a chaotropic agent, as evidenced by Krivan (U. S. Patent No. 5,843,463) at column 12, full paragraph 2 and at column 30, full paragraph 1; and Magnusson  
20   (U. S. Patent No. 4,455,381) at column 7, lines 58-59. Because NaCl is a chaotropic agent and because the present specification does not expressly exclude the presence of a chaotropic agent and because the transitional phrase “consisting essentially of” limits the scope of the present

Art Unit: 1647

claims to the specified materials or steps and those that do not materially affect the basic and novel characteristic(s) of the claimed invention, the limitation "wherein said folding buffer does not contain a chaotropic agent" does not have a basis in the present specification, and hence introduces a new concept and violates the description requirement of 35 U.S.C. § 112, first

5 paragraph.

### *Conclusion*

No claims are allowable.

Applicant's amendment necessitated the new ground(s) of rejection presented in this

10 Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after  
15 the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
